

UTTAM RUBTECH MACHINES

We Build Machines To Last Generations

Dispersion Kneader

Address : S-7, Community Centre, Mayapuri, Phase I, New Delhi - 110064 (INDIA)

Phone : +91-9312655015 / +91-9312253001

**Email : info@uttammachines.com
sales@uttammachines.com**

Website : <http://www.uttammachines.com>

RUBTECH Offers complete series of KNEADERS from 25 To 150 Litre Production model in Front charge and front discharge type with hard faced Rotors for long life.

Dispersion Kneaders Superior by design

A dispersion kneader superior by design, engineering and construction represents an advanced class of kneaders in India.

Rubtech Dispersion Kneader has proved a big boon to several medium and large rubber industries. Incorporating world-class technological features, it symbolizes techno-economic success among Indian Kneaders, by giving higher outputs, through perfect process control. Dispersion Mixer can be employed in a wide range of material mixing, ranging from low viscosity adhesives to high viscosity rubber.

With simple operation and easy cleaning, it gives its best even when the operators skill and experience are limited.

Combination with Sheeting Mill

Several kneaders have been supplied with appropriate **Rubtech** Sheeting Mill through a skip conveyor.

Materials of Construction

- **ROTORS** : One piece Special Steel Fabricated for intensive cooling, duly finished and hard chrome plated or armoured with hard facing.
- **CHAMBER** : One piece Special Steel Fabricated for intensive cooling duly finished and hard chrome plated.
- **SIDE BOARD** : Special Steel Fabricated duly finish machined and hard Chrome Plated.
- **PRESSURE LID** : Special Steel Fabricated Duly finish machined and hard Chrome Plated.
- **SEALS** : Mechanical Seals.
- **TITLTING** : With Hydraulic Cylinder and Hydraulic power Pack unit which tilt the mixing chamber for the discharging the mixture.

TEMP. INDICATION : Projecting type thermocouple.

Technical Specifications

Model	Capacity (L)	Capacity (kg)	Capacity (lit)	Drive	Tilt Angle	Motor Power (H.P)	Output (HP)
URM-K-25	40	45	25	Hydraulic	120°	2 H.P	2 HP
URM-K-35	60	75	35	Hydraulic	120°	3 H.P	5 HP
URM-K-55	75	125	55	Hydraulic	120°	3 H.P	5 HP
URM-K-75	125	170	75	Hydraulic	120°	5 H.P	7.5 HP
URM-K-100	150	215	100	Hydraulic	120°	5 H.P	7.5 HP
URM-K-125	175	265	125	Hydraulic	120°	7.5 H.P	10 HP
URM-K-150	200	325	150	Hydraulic	120°	7.5 H.P	10 HP
